

California Farm Management, a self insured workers comp group administered by Self Insured Solutions.

Great things happen when safe employers self insure.

Consider the advantages when you're in control:

- » A cost-saving partnership with industry leaders like you
- » Costs are lowered through a group of safety-minded companies
- » Aggressive claims handling
- » Membership among a group in which all participants have passed a safety evaluation
- » Professional risk management, additional training programs and consulting to minimize your claims
- » Surveillance used to monitor potentially fraudulent claims
- » Program fortified by "A" rated Excess Insurance

Your invitation to a money-saving solution.

California Farm Management, a self insured workers comp group administered by Self Insured Solutions, is an elite collective of safety-driven agricultural employers who've pooled their resources to successfully self insure.

It's simple: Members of the group make contributions, and the self insured group then pays the claims and expenses. And because only leading companies are invited to join, members enjoy real savings.

Like-minded leaders sharing workers comp solutions.

California Farm Management, a self insured workers comp group, is reviewed, approved and monitored by California's Department of Industrial Relations Office of Self Insurance Plans. You have the comfort of knowing you're joining a group with state oversight, along with a stringent safety program implemented to all members.

Seeking safety champions who want to save.
